NOTICE

The College has recently introduced the **IASE MENTOR BOT** as a key support component of the Learning Management System (LMS) to strengthen the Internship Programme. This AI-enabled tool is designed to enhance the quality of guidance, mentoring, and the overall learning experience of student-teachers during their internships. All Coordinators, Mentors, and Pedagogues are encouraged to ensure the optimum utilization of this AI tool in their respective mentoring processes. It is expected that they actively engage with the IASE Mentor Bot, integrating it into their daily mentoring practices to provide timely, effective, and personalized academic support to the student-teachers. To ensure accountability and systematic monitoring, District Coordinators of the respective Internship Centres shall oversee and report the extent to which pedagogues are effectively leveraging the IASE Mentor Bot. Their observations and evaluations shall be submitted to the Coordinator (Internship), who will compile weekly summaries, consolidate the data, and prepare a comprehensive final report to be submitted to the Internal Quality Assurance Cell (IQAC) upon completion of the B.Ed. 4th Semester Internship Programme.

Furthermore, the Coordinator (Internship) shall conduct hands-on training and practical orientation session on the IASE MENTOR BOT to familiarize and equip the faculty with its features and ensure its optimal and effective usage during the Internship Programme.

In order to encourage healthy participation and innovation, the Best Performing Group from each Internship Centre—based on effective utilization of the IASE Mentor Bot and overall internship performance—shall be felicitated at the conclusion of the programme. Likewise, the Best Mentor and Best District Coordinator, demonstrating exemplary use of the AI Mentor Bot and outstanding mentorship, will also be acknowledged and appreciated by the college. This initiative aims to ensure the optimal and meaningful integration of AI-based tools within the LMS, thereby enhancing efficiency, improving mentoring outcomes, and fostering a culture of technology-driven teaching and learning excellence across the institution.

Dr. Mohd Yasin Pir
Coordinator IQAC

Prof. (Dr) Seema Naz
Principal
